RAHUL KUMAR

Patna, Bihar

+91 7667163125   h.raul0905@gmail.com   Linkedin   Github

Skills

C/C++, Oops, HTML, CSS, Bootstrap, JavaScript, ReactJs, NodeJs, Data Structure and Algorithm

Projects

Gym-Website   **Git Link**

I've developed a Responsive Gym website/app using pure React JS. It offers a variety of membership plans, and new users can join with ease. The platform provides a seamless experience for users to select and sign up for their preferred fitness plans.

Instagram-Clone App   **Git Link**

This Instagram Clone app built with pure React JS and Firebase, new users have the seamless experience of signing up and creating their accounts effortlessly with Login too. They can initiate this process by clicking on the 'Sign Up' button and Login button. This streamlined process ensures a smooth and user-friendly experience for all.

My Personal Portfolio   **Git Link**

I've designed My Personal Responsive Portfolio using pure JavaScript. It showcases my skills, projects, and achievements in a user-friendly and visually appealing manner, highlighting my proficiency in JavaScript programming.

Calculator   **Git Link**

I've developed a functional calculator using HTML, CSS, and JavaScript, allowing users to perform a wide range of arithmetic operations effortlessly. This user-friendly tool provides a seamless experience for conducting calculations, making it convenient for anyone needing quick and accurate results.
